Thanks Letter

To Dr. J.G. Ray
School of Biosciences
Mahatma Gandhi University

Dear Prof. Ray

On behalf of Research Institute for Studies of the Global Environment, Sophia University, I would like to express my gratitude to you for coming a long way to deliver two lectures, one for students and another for professionals, on water environment in Kerala. The lectures were so educative and so inspiring. We learned not just the characteristics of water environment, but also the ecological ways of thinking you explained. Your visit to Sophia University serves as a turning point for more academic exchange between Sophia and your university. Based on your lecture contents, we plan to visit Kerala this summer to have concrete academic exchange with researchers in Kerala via workshops and joint field survey.

It will be deeply appreciated if you could kindly make arrangement for our activities in Kerala.

Sincerely Yours

Guangwei Huang

PhD, Professor
